NEW YORK LIFE

INSURANCE CO

Branch Office, 25 and 26 Bryan Blk,

CHICAGO, ILL.

Purely Mutual, Equitable, Progressive and Secure. Twenty-seven years of Business Experience.

Assets, - $21,000,000!

Safely Invested and rapidly increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $33,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends actually returned (not promised) amounting to over $6,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of insurance are negotiated on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. Upon this new plan it is confidently expected that the dividends will far exceed those now declared by any other Company.

Further particulars in regard to this and all other plans of Insurance will be cheerfully furnished upon application to

COLORADO SOCIETY.

A correspondent of the St. Louis *Globe* writes:

Our butcher is a graduate of Yale: one of the gentlemen working in the printing office is a graduate of Cambridge and a winner of the Bishop's medal for proficiency in the classics; a ranchman near here is the son of a general in the British army, and a near relative of George Stevenson, of railroad fame. Four other ranchmen are the four sons of a former Governor of Bengal, who is still very wealthy. Two are the sons of an eminent London banker. A graduate of one of the univesities manages a dairy, and attends to most of the milking personally. I said to an English lady of culture and refinement, a friend of theirs: "Why is it that these young men choose to leave their homes of luxury to live in this hard, rough way?" "It is to escape that life that they come here. They are tired of it, there seems to be so little manhood in it." Within their tents are constant hints of the comforts and luxuries with which they have heretofore been surrounded. Elegant dressing-cases, valuable watches and jewelry, the finest linen bedding in quantities, damasks of exquisite quality, while scarcely a week passes that presents from friends testify, not only to their remembrance but to their wealth and liberality. Yet these men lie down with the stars for their canopy, the earth for their bed, the mountain wind for their song, with only a blanket about them. I asked if they really worked hard, or, if it was the romance of "roughing it." "They sought work," said my informant. "they work like galley slaves."

HOW THE RHODE ISLAND MILLIONAIRES WERE MADE.—A correspondent of the Providence Press gives some interesting information about factory life in Rhode Island forty years ago. During summer the operatives were worked fourteen hours a day, beginning at 4:30 in the morning and working until 7.30 to 7:45 in the evening, with half an hour for breakfast and three-quarters of an hour for dinner. In winter the hour for closing at night was 7:30, except on Saturday, when they quit work at dark. This was continued for years, until a young girl employed in one of the factories died after a brief illness. Physicians decided that the cause of her death was overwork. The mill owners then held a meeting, and resolved to shorten the time of labor to twelve and three-quarters hours in summer. Overseers received about $8 per week. They were cruel task-masters, and beat and abused the operatives most brutally. One boy was lifted from the floor by the hair of his head by an overseer, and held until the hair came out by the roots. In a manufacturing village, near Providence, a rope was tied around the waste of a young girl, and she was hung from the window over a stream of water about 30 feet below. She died from fright. The situation of the factory operative has been much ameliorated within the past forty years, but there is room for improvement.

THE cholera plays strange pranks, utterly upsetting old ideas about sanitary cordons and climatic influences. In Gallatin, Tenn., a village high, well drained and healthy, 6 per cent of the population have died in four weeks, though half of the population fled when the pestilence broke out. In Chattanooga, with a population now reduced to less than 5,000, there were fifteen deaths on the Fourth of July, and the same number on the 7th. A like ratio would give 3,000 deaths daily in this city. But the point is, that these villages are not filthy, and are more than usually healthy. This is one of the facts that go far to prove that cholera is produced by cholera poison, and not by filth, the use of fruit or by any special kind of fruit or drink. At the same time, efficient sanitary measures may ward off or stamp out the poison, and lessen its deadliness.—*Graphic*

THE Franklin *Journal* tells a story of haying by night in Canterbury, N. H. A farm there was unfairly obtained from a dying man, in fraud of the widow and orphan, and the pretended purchaser, who resides in Manchester, recently came to cut the hay thereon. He got his mowing machine ready for use the next morning, and retired. That night about twenty men and women turned out and did up the haying by moonlight, and the next morning when the Manchester man appeared, he found the grass had disappeared.

NEW YORK, July 22.—Isaac B. King, father of Lizzie E. King alias Kvte Stoddard, arrived in Brooklyn today and visited his daughter at the Raymond street jail. He remained three hours with her in her cell. He had not seen her before for six years and said she was very much changed.

NEW YORK, July 22.—The American Cheap Transportation Association, of this city, perfected its organization last evening, and adopted resolutions setting forth that the unjust and extortionate rates charged by the various railroads of the country are detrimental to the interests and industries of the nation, and condeming the action of railroad companies in bribing legislatures and defying judges and executives.

DECATUR, ILLINOIS:

Thursday Evening, July 24.

The *Magnet* "took the bull by the horns" from the first, and expects to hold on to the last.—*Magnet.*

We are sorry for the bull.

THE railroad property of Illinois was, in 1871, assessed at $25,516,012. The figures for 1872 were not much larger. This year the Illinois *State Journal* believes the assessment will be raised to $200,000,000. The State Board of Equalization meets next month.

The Chicago *Journal of Commerce* gives some very sensible advice to Western farmers. It tells them to—

"Diversity industry, develop local resources, encourage manufactures near the farm, make population denser, create on your own soil as many centres of commerce as you can, do everything in your power to bring consumers to your door.

Some writers and physicians appear to be very desirous of making people believe that there is no Asiatic cholera in the country. We attach but very little importance to a mere name, but the facts are sufficiently appalling to convince every one that a disease whether cholera, cholera morbus, or whatever it may be, is alarmingly fatal, and that every sanitary precaution should be used to prevent its spread.

He hurls at us the gauntlet of egotism and pomposity through the innumerable channels of his infernal stupidity by ostensibly not deigning to reply when we attack him, and when he attempts to rail upon, or submit a criticism on the style of the Review his argument is as a frail bubble, which when we prick it, it vanishes into nothingness, or what is worse, nonsense.—*Local Review, Decatur, Ill.*

"We think so."

SAYS the Chicago *Mail* "There is a manifest tendency on the part of the railroads to reorganize their tariffs on the basis of lower rates. A morning paper states that the Rock Island Railroad will take the initiative, and mentions as a 'serious' consequence that certain other roads will be compelled to follow suit! The consequences will certainly not be especially 'serious' to the shippers, nor do we believe they will prove to be to the railroads, if having established low tolls, they will go on in faith and patience, and adhere to them. It takes *time* to test any plan or to adjust it properly. It will certainly be an unparalleled event in the business history of this country if the railroads find that low rates do not increase traffic enough to give them all they can do. Beyond that point the power of competition is absolutely broken because the people will have to use *all* the roads in order to move *all* their freight, and the established roads will have a protection against the building of new lines in the fact that the old chances for steals and swindles will be removed, and the 'inducements' to build them will be largely cut off. A new road cannot compete with an old and established line, on the basis of low freights, and the result will be that the lines at present in operation will have a protection on the one side as advantageous as that which they part with upon the other side.

NIGHT ATTACKS OF CHOLERA.

Dr. T. S. Bell, of Louisville Ken., has given to the public, through the *Courier-Journal*, several instructive articles on the origin, nature and distribution of the cholera, in which particular attention is called to the fact that the disease generally attacks persons in the night-time or early in the morning. He regards cholera as malarial in its origin. In the *Courier-Journal* of the 17th inst he says:

"But the main portion of my subject is untouched. It is an important one. I repeat it. No case of cholera has ever yet occurred, except as the result of sleeping at night where the cause is, and no amount of exposure in the day-time, without the sleep at night in the locality, ever gave the disease. No mere sojourner during the last 300 years has ever slept at night in the malarious season, in the Pontine marshes (near Rome), without dying. The Abbruzzi mountaineers, who put in such crops as are raised there, sleep in day-time, but never at night. All testimony that has spoken on this point in reference to yellow fever, testifies that no amount of exposure in day time is perilous, but that the only danger is in sleeping in the locality at night."

If any railroad company in this State is trying, by its new tariffs, to make the railroad law odious, then just *how* odious it deserves to be will probably be best shown by the fact whether the next Legislative session cannot find sufficient in the law to properly punish such a company for its odious policy. If they can't, then the law *is* odious in one important respect, and should be promptly amended.—*Rock Island Union.*

CIRCULAR LETTER,

DECATUR, ILL., July 22, 1873.

NORMAN FAILING, ESQ., Chairman of the Board of Supervisors of Macon county—*Sir:*—As the legal and constitutional advisor of the Board of Supervisors of Macon county, I have thought it proper to address a note to the said board, through you as chairman, in reference to the suit which the board contemplate bringing in behalf of the county against the Toledo, Wabash and Western Railroad Company, and the contract that has been entered into between said board and a certain law firm of this city.

First—In reference to the contemplated suit: As the attorney for the county—whose duty it is, by law, to commence and prosecute all actions, suits, indictments and prosecutions, civil and criminal, in this county, in which the people of the State or the county may be concerned, and to commence and prosecute all actions and proceedings brought by any county officer in his official capacity—I will say that, with due deference to the opinions of said board, for which I believe I cherish a proper regard, had my opinion been asked by the board I should have advised against bringing suit at all as I have heretofore believed that what has been done by the people of Macon county in reference to the building of the Decatur and East St. Louis Railroad was done in good faith, and that there had not been any general dissatisfaction in reference thereto on the part of the people of the county. Nevertheless, had I found the board persistent in a contrary opinion, I should then have advised a careful and searching preliminary examination, in order to determine whether or not there were any reasonable grounds for believing that by any means any rights had thus accrued to, or passed from, the people of the county which ought to be prosecuted for and recovered back, before involving the county in a suit which might be of no benefit to any one, and which might besides seriously involve the credit and good name of the county, and by consequence the interests of the people thereof. Having thus carefully and calmly inquired beforehand, had the board still felt it to be a duty to proceed with the prosecution of a suit, whatever might have been my own opinion, I should have regarded it my duty in good faith to commence and prosecute the suit, and give, so far as I am related to such cases, a full and fair opportunity to test the questions a controversy in the courts. And even without such preliminary examination, should the board insist that the suit must be had I would feel bound to defer to their judgment and to proceed with them as far as my legal obligations would allow, and by no means could I place myself in the way of a thorough trial of the case in the courts.

But with the highest respect for the members of the board, personally, and entertaining none other than sentiments of regard for their opinions, I cannot do otherwise as their legal advisor than to say to the board, through you, that it is my opinion that the contract that said board have made with Messrs. Cren & Ewing is without the sanction of law; and as I believe it to be illegal I can have nothing to do with it in any shape or form, nor can I recognize it as a valid and subsisting obligation. First—It is my opinion that there is no law by which the board can make such a contract, and thus bind the people of the county, and likewise concede away rights that the board may and ought to exercise in the premises themselves; and upon a careful examination of the law I believe the board will agree with me. Second—If there are any equities in the claim which the board propose to urge in the courts, then it is utterly preposterous that the people should thus be compelled to pay one-half the claim, if established, in order to recover their dues; such a course, I undertake to say, is without a precedent in connection with any commonwealth like the county of Macon. Third—The board are not driven to the necessity of making any such unprecedented contract; the law clearly points out the way by which all claims of such a nature may be commenced and prosecuted. If the case is unusually complicated—which in this particular instance is not so, any representations to the board to the contrary notwithstanding—there may be readily associated with the State's Attorney the best legal talent of the state, by paying such a fee as the people of the county might regard as reasonable; for if such fees are paid it must be by a kind of common consent, as I can find no form of law authorizing the Board of Supervisors or any county officer to employ attorneys in any actions or suits brought by them in which the people of the county are concerned.

It is well known that this has often been done, not only in this but in other counties; and while the proceedings in this regard were within the limits of reasonableness, and while there seemed to be a necessity for such a course, no one felt disposed to object, and the expense thus incurred has been promptly met by the people. When, however, a contract, such as the board have made, assumes such unwarrantable proportions, as it seems to me this does, I deem it my duty respectfully to remonstrate against it.

I understand that some of the members of the Board of Supervisors claim that by this course, they save and keep harmless the county against costs of suit, should the decision of the case be adverse. I submit to the board on this point, the following considerations: First—if there are reasonable grounds for belief that the county has a just claim against the aforesaid railroad company, it is a solemn duty to prosecute, and the county not being a pauper, is not under the necessity of calling upon anyone to indemnify it from loss in proceeding to do that which it is in duty bound to do; and much less should it barter away one half of what is considered an equitable claim, in order to avoid the possibility of having some costs to pay without receiving anything in return. If, on the other hand, it appears to be a claim extremely doubtful as to the equity of its character, and so much so as to justify such an unwarrantable frittering away of the claim, as is contemplated in the contract of the board, it seems extremely doubtful in my mind, if the county would be wise in entering upon such litigation. Such a course might be allowable or overlooked in the case of a litigious individual, but is it commendable in the case of a grave community. I wish to say further, that I am no more concerned than any other individual, as to who may at any time by your advice, or that of others, be associated with me in the prosecution of any case, civil or criminal, in which the people of the state or county may be concerned, as my pecuniary interests could in no wise be affected thereby, my fees being established by law, and in that matter there is no room for controversy.

Now, in conclusion, I respectfully suggest, and indeed recommend, that the board take such steps as their wisdom may dictate, to rescind a contract, which seems to me to be wholly at variance with a wise, careful and economical management of the business of the people, and which I respectfully submit, the people of the county can not and ought not reasonably be expected to sanction or indorse.

Very respectfully,
Your ob't servant,
CHAS. C. MCCOMAS,

THE CLEVELAND RACES.

PROPOSED BRIDGING OF THE OHIO.

Boiler Explosion and Fire.

Emperor of Austria Thinks American Inventors are Without Rivals.

German Troops Evacuating France.

CLEVELAND, O., July 23.—Great excitement prevails among horsemen in reference to the coming meeting at Cleveland between the celebrated horses Judge Fullerton and Camars. Fullerton is a New York horse, and Camars is owned in Boston. Each has hosts of friends, and the animals have both made the same record—2 21¼. Camars at Prospect Park last September, and Fullerton at Saratoga in October, each having defeated the other. The knowing ones say it will be difficult to name the favorite.

Goldsmith Maid, American Girl and Lucy are named for the race for all ages, and speculation is rife in reference to the second place in this race.

It is conceded by all that the meeting has brought together the finest field of horses ever known in America.

DES MOINES, July 23.—The latest advices from the railroad robbers is that they were last evening between Creston and the State line, pushing for Missouri with the utmost speed. They passed a farm house last evening, about dark, their horses being well jaded. The company divided, one-half going in another direction. Dispatches received from the officers in pursuit, this morning, state that they have got between them and Missouri, whither the robbers are going. They are evidently regular Missouri guerrillas, who understand the business they are in. The country is all alarmed, and hundreds are in pursuit, and it seems impossible for them to escape, although they are mounted on horses of racing stock. The engines on the Rock Island Road are draped in mourning for the death of Rafferty, the engineer killed in the railroad robbery.

SPRINGFIELD, July 23.—Mr. J. C. McMullen, Superintendent, and C. Beckwith, the attorney of the Chicago and Alton Railroad Company, have been in conference with the Railroad Commissioners all the forenoon. The conference consisted simply in an interchange of opinions upon freight tariff and the carrying trade generally in the State. The Commissioners have invited Colonel J. H. Carter an old and experienced railroad man who was connected with the early management of the Toledo, Wabash & Western Railroad, to give them his experience and he will probably assist them in their labors this week. He was present at the conference this morning. A number of freight agents from the leading railroads in Chicago will, it is thought, be invited before the Board during their session this week.

PARIS, July 23.—The Carlists have made a formal demand of France for a recognition of their rights as belligerents. The French government has refused, and declares that it will remain perfectly neutral.

WASHINGTON, July 23—The Attorney General has refused to recommend pardon in the case of James Pickett, of Idaho, sentenced to be hung in that Territory on Thursday, August —, 1873. Pickett killed an Indian woman. This is the first case in which a white man has been sentenced to death for the murder of an Indian.

CINCINNATI, July 23.—Only one death from cholera reported at the Health Office to-day.

LaGrange had eighteen deaths from cholera within the last three days.

WHEELING, W. Va., July 23.—A man named Chas. Brooks died this afternoon of cholera. W. P. Wilson, an old resident of this city, is very low with the same disease.

LOUISVILLE, July 23.—William Wredington, who arrived on a raft from the Upper Ohio last Sunday, died in this city to-day of cholera, the result of gross negligence and imprudence.

EVANSVILLE, July 23.—Two deaths from cholera are reported by the Journal's specials at Carmi, Ill.

The Journal's Mt. Vernon reporter says that the panic is over in that place. Two deaths were reported to-day, but no new cases. Stores are being opened and business resumed, and a more cheerful state of affairs prevails.

WILLIAMSPORT, Pa., July 23.—Isabella McBride, aged 70, living with her husband on a farm about seven miles from this city, was brutally murdered last night by being shot through the head. Her husband, John McBride, was knocked down with a club and received severe cuts on the head. The old people lived alone, and were supposed to have a large amount of money.

CLEVELAND, July 23.—At three o'clock this morning an explosion occurred in Fries & Co's. distillery on James street. A man was blown into the middle of the street, and another man was blown from the second story window against another building. Neither of them were seriously injured. Immediately following the explosion an extensive fire broke out, and totally destroyed the large brick block occupied exclusively by Fries & Co. On account of the large quantity of inflammable material, the fire spread with great rapidity. It is said that a large quantity of liquors was destroyed. The loss cannot at present be estimated, but will probably reach $75,000.

LOUISVILLE, July 23.—A meeting of several members of the General Council, together with the incorporators, to consider an ordinance to submit to the people of Louisville a subscription of half a million dollars, to aid in the construction of another railroad bridge across the Ohio River at this point, was held to-night, and the ordinance accepted, the question to be brought before the General Council to-morrow night for action, the bridge, as proposed, to cost $2,000,000, having a railroad, carriage and foot way. It is stated the Chesapeake and Ohio Railroad will take half a million stock, and the Ohio and Mississippi Railroad a large amount if the Louisville subscriptions be voted.

MATAMORAS, July 23.—Advices announce the complete defeat of the revolutionists in the state of Jalesco, and the capture of the famous chieftain, Lesada, who has for the last fifteen years refused to submit to the federal government.

MADRID, July 23.—As the insurgent's iron clad, Vittoria, was sailing from Alicante, a German frigate, which was lying in the harbor, got up steam and followed her out by orders received from the German legation at Madrid.

PARIS, July 23.—It is officially announced to-day that the fortified town of Mezieres, the capital of the department of Ardennes, and the town of Charleville, on the opposite side of the river Menz, were evacuated last night by the German forces, which have occupied them since the conclusion of the war. The staff of Gen. Mantenffel, the commander of army's occupation, will remain at Nancy for a short time. After its departure from that city, Verdun District will be the only French territory occupied by German troops.

BAYONNE, July 23.—The Carlists claim that their effective force in Spain now numbers 30,000 men. They have disembarked a large quantity of arms and ammunition from England at Requito.

NEW YORK, July 23.—A dispatch from Vienna gives an account of the visit made yesterday by the emperor of Austria to the American department of the exposition. After a close and careful examination of many of the articles on exhibition, the emperor said: "For improvements on inventions and for new inventions, since the last exhibition, America is without comparison in the entire building. America makes a more varied, instructive, and interesting display than has been shown in any previous foreign exhibition. Beyond that most noticeable feature in your display of industry and art, is the constant evidence it affords that the artificers are thinking men—that your labor seems to be inspired by constant and active intelligence." The emperor then promised to give another day to the inspection of the agricultural implements, of the American department, and retired.

THE Rev. T. DeWitt Talmage has accepted the Editorship of *The Christian at Work*, and his sermons and articles are to be published exclusively in that journal. Mr. Talmage will begin his duties in August.

THE subject of regulating railroad charges is fast becoming the most absorbing question now before the public. It is discussed in the newspapers, in farmers' societies and granges, in manufacturing circles, and in all places of public resort; and there is no doubt but that it will enter largely into the issues of the approaching county election. It has now been so thoroughly brought before the public mind that it can no longer be postponed or ignored, but will have to be fairly met and settled. If the present law is found to be defective or unconstitutional, the Legislature will, next winter, be called upon to amend it or pass a new one. The people are thoroughly aroused, and will not be satisfied until the question is permanently settled upon a just and equitable basis.—*Alton Telegraph.*

CITY DEPARTMENT.

...No man will be likely to wilt to-day because he lacks moisture.

...To-morrow is Friday, the unlucky day—so everybody should do everything to-day.

..."A little more sleep," was the prayer this morning of the poor mortals who were serenaded all night by yelping dogs.

...The largest concert troupe ever known was composed of the morning stars, which we said to have sung together at the completion of creation.

...The worst potato bugs are those that wait until the potatoes are full grown and then carry them off by the peck. This kind operates mainly in the night, and we have heard considerable complaint of their depredations.

...Those who want a right nice dish of ice cream this evening should go to the festival at the West Mission Chapel on Decatur street. The distance from town is just right for a pleasant evening stroll, and a social hour may be very pleasantly spent.

...Decatur tourists are beginning to put in personal appearances at their respective places of business. In a few weeks all our absentees will have taken their usual stations in the marts of trade, and business will resume its wonted activity.

...Our pet mouse is getting a little too familiar. He spoiled some copy for us last night, and we give him due notice that if the operation is repeated we shall not allow him free access to our paste dish as we have done, and that we shall impose such other pains and penalties as the nature and extent of his misdemeanors may require.

...Our Weekly comes out to-day, and contains the doings of the Board of Supervisors at their last meeting, the action of the citizens' meeting on Saturday night, and also much other matter of general interest to the community. A few extra copies may be had by calling at the REPUBLICAN office.

...A coal cellar is being constructed under the sidewalk in front of Ehrman's clothing and May's grocery stores, in Powers' block. This will supply a much needed convenience to those business houses.

...We are again on the sweat and blow. Mercury to day climbs up to 90 in the shade, and people manifest a strong tendency toward shady places and soda fountains. Never mind, what is misery for one is comfort for another; the ice cream venders will be in high glee as the mercury goes up, up, up to the hundreds, and from the rest of us poor mortals the sweat comes trickling down, down, down.

...We suspect that some of the feline concerts broke up in a row last night, as we saw a big Thomas cat this morning with a swelled and bloody head. It was probably the result of indulging too freely in benzine.

...Travel upon the railroads is rather light just now, and the arrivals at our hotels have fallen off somewhat for a week or two past. Traveling salesmen are taking their summer vacation while business is dull, and hotel keepers must expect to feel their share of the general depression which is felt by all branches of business at this season of the year. This affords a good opportunity to clean up and get the house in order for the fall rush.

...Mr. Binkley, of Boody, who was reported to have absconded, has returned and was in town yesterday. He pronounces the rumors of his having absconded, or being guilty of any other irregularities, without foundation. We are glad to publish this denial for Mr. Binkley, and take this opportunity to say that to start such rumors about any one, through personal spite, is an act entitled to the severest censure.

...We call attention to the notice which appears in our issue to-day of a picnic excursion by the Sunday School of the First M. E. Church, which comes off one week from to-day. The grove to be visited is one of the finest in central Illinois, and no pains will be spared by those who have the matter in charge, to make the occasion a pleasant one for all who may go. The rates of fare are very low, and any of our citizens who may wish to spend a day pleasantly away from the heat and dust of town, will do well to avail themselves of this opportunity.

Personal.—Mr. Fred. N. Wines, Secretary of the State Commissioners of the Board of Public Charities, called at our office to day. Mr. W. will soon give through our paper some valuable suggestions for the benefit of the committee having in charge the construction of the new county almshouse.

Police Record.—Peter Sells was before Justice Misner this morning charged with an assault upon Wm. Hennesy. For this little fun he paid $5 and costs, and then $5 more for resisting the officer who made the arrest.

Extensive Addition and Repairs.—The pump and furniture factory of Wm. Lintner & Co., has suspended operations for a few days, for the purpose of putting in a new boiler and engine, which are to take the place of those formerly in use in that establishment. Besides the new engine and boiler this enterprising firm has made other additions and repairs which will greatly increase the capacity of the concern for turning out work.

A three-story wing has been extended south upon the east end of the main building. In the basement rooms of this addition is to be placed the new engine, which is to be a seventy-five horse power machine. In rooms over this, in the new part, are lathes and other machinery.

South of this engine room is the boiler room, which is separated from it by a fire-proof wall, and iron doors, and is as nearly fire proof as a room can well be made.

South of this is the new brick smoke stack, which is about ten feet square at the base, and rises about 80 feet from the foundation. It is expected that the new boiler and engine will be in position and ready for operations by Monday next.

These additions and improvements, as already intimated, will materially add to the convenience and capacity of the establishment. This is one of the most enterprising firms of the city, and we are glad to witness in their business the degree of prosperity which these improvements indicate. The rapid growth of this large manufacturing establishment, from small beginnings, is but one illustration of what may be done in our midst in any branch of manufacturing, could people be induced to turn their attention in that direction. When will the people see it?

Private Picnic.—Quite a number of families from the city and suburbs have gone out to Mr. Joshua Green's, in Whitmore township, for a picnic to-day. He has a beautiful grove near his house, where a right good time will doubtless be enjoyed.

A New Enterprise.—A new plan for draining the city has been devised by an enterprising citizen. It is to bore a hole through to the other side of terra firma. The big auger is all ready, and there are only two things that can interfere with the speedy completion of the job. One is the getting out of an injunction upon the proceedings by John Chinaman, and the other is a protest from Honest John, of Decatur, upon the ground that it will interfere with the pumping business.

Grand Excursion and Picnic.—The Sabbath School of the First M. E. Church has arranged for a basket picnic at Hackett's grove, on the line of the I. & I. C. Railway, two miles east of Tuscola, on Thursday, the 31st day of July inst. This road has the finest coaches of any road running into the city, and these have been engaged for the excursion. As an invitation has been extended to all, we presume all who can will avail themselves of this opportunity of taking a ride over one of the finest roads in the state, at a mere nominal price, and of participating in the enjoyments of the day on the beautiful grounds selected for the occasion.

RATES.—All persons over 15 years of age, $1; 12 to 15, 50 cents; 8 to 12, 25 cents—for the round trip.

J. R. GORIN, Sup't.

Honest John.—This young man was "gobbled up" to-day on account of some money sticking to his fingers. We did not learn the amount or to whom the money belonged.

Sociable and Festival.—The West Mission Sunday School give a festival this evening at their chapel on Decatur street. The public is invited. No pains will be spared to make it an interesting and pleasant occasion.

Sunday School Convention.—The Macon County Sunday School Convention will be holden in this city, at the Baptist Church, on Tuesday and Wednesday, August 26th and 27th. It is hoped that every school in the county will be represented.

DECATUR MARKET REPORT.

DECATUR, July 23, 1873

Hay is coming in slowly. On the street new timothy brings $10 per ton; old timothy sells quick at $12.

There is a slight improvement in corn. Loads are selling on the street at 25 to 26c per bushel. At the warehouses but little is doing, and prices range from 1 to 2 cents below street rates.

New wheat is beginning to come in.—Prices are $1,10 for red, and $1,15 for good white.

No material change in flour since our last report.

The receipts of garden produce are light, and dealers pay the following prices: New potatoes 75c per bu.; Apples 50 to 75c per box; cabbage 5 to 7c per head; onions $1 per bu.; Tomatoes 75c to $1,00 per box.

We think the farmers who control the granges should accept Senator Windom's invitation to a conference with the Senate Committee on Transportation. The grangers are seeking to correct the evils of transportation system, which imposes such heavy burdens upon the agricultural interests, and the only way they have thus far proposed to correct these evils is by means of legislation. The Senate of the United States organized Senator Windom's committee for the express purpose of ascertaining the nature and extent of the ills complained of, and to discover and report some practicable way for getting rid of them. The subject calls for some good thinking on the part of those who are interested in the movement, and we doubt not that a free conference with Senator Windom's committee will enable the intelligent leaders of the farmers' movement to devise some scheme of practical legislation which will do more to accomplish the purpose in view than all the windy speeches that have been delivered on the subject.

THE Supreme Court of Illinois has decided that a fire insurance company has not the right to cancel a policy when a fire is approaching the insured property or when danger of destruction is impending. The case arose under the cancellation of a policy on cord-wood while forest trees were burning in the neighborhood.

Trustees' Sale!

WHEREAS, Patrick Ryan, of the county of Macon, State of Illinois, did on the 15th day of April, A. D. 1871, by his certain Deed of Trust of that date, convey to Reuben H. Meriweather, as Trustee, certain real estate situated in said county and State and described as follows, to-wit:

Commencing at the northwest corner of the southwest quarter of the southwest quarter of section eight (8), in township six, north, range two (2) east of the third principal meridian; running thence east twenty (20) chains; thence south twelve (12) chains, to a point fifty (50) feet north 22-100 chains, to a point fifty (50) feet north of the Toledo, Wabash & Western Railroad; thence west to the west line of said section eight (8); thence north fifty-eight and 47-100 chains to the place of beginning—containing eighteen 68-100 acres, more or less;

Which said Deed of Trust is recorded in book No. 95, page 186, in the office of the Recorder of said county, and was made to secure the payment of a certain promissory note dated even therewith, executed by said Patrick Ryan, and made payable to the order of Thomas O. Smith, for the sum of Fifty-Seven Dollars, due and payable by its terms four months after the date thereof; said Deed of Trust containing conditions of defeasance upon the payment of said money and the accrued interest thereon;

And whereas, The said Trustee, in case default should be made in the payment of the said sum of money as aforesaid, with said accrued interest, upon application of the legal holder of said note, was in and by said Deed of Trust authorized and empowered, after having given twenty days notice of sale by publishing the same in some newspaper published in the city of Decatur, in said county of Macon, State of Illinois, to sell said land at public sale, for cash in hand, to the highest and best bidder, and to convey said land to the purchaser thereof, at said sale, by good and sufficient deed in fee simple, free from the homestead rights of said Ryan therein;

And whereas, Default having been made in the payment of said note and the interest thereon accrued, the said Thomas O. Smith, the legal holder of said note, has this day applied to me as such Trustee, and requested the advertisement and sale of said land under and by virtue of the power and authority contained in said Deed of Trust;

Public notice is therefore hereby given, that the undersigned, as such Trustee, will sell at public sale, at the west door of the Court-house in the city of Decatur, in said county and State, for cash in hand, on

Thursday, the 31st Day of July, 1873,

Between the hours of ten o'clock a. m. and four o'clock p. m. of said day, all the interest of the said Patrick Ryan, both legal and equitable, of, in and to the following described real estate, situate in Macon county, Illinois, to-wit:

Commencing at the northwest corner of the southwest quarter of the southwest quarter of section eight (8), in township six, north, range two (2) east of the third principal meridian; running thence east twenty (20) chains; thence south twelve (12) chains, to a point fifty (50) feet north 22-100 chains, to a point fifty (50) feet north of the Toledo, Wabash and Western Railroad; thence west to the west line of said section eight (8); thence north fifty-eight 47-100 chains to the place of beginning—containing eighteen 68-100 acres, more or less.

Harper's Magazine

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—*Boston Globe.*

The character which this *Magazine* possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The *Magazine* has done good and not evil all the days of its life.—*Brooklyn Eagle.*

Notices of the Press:

The *Weekly* is the ablest and most powerful illustrated periodical published in this country. Its editorials are scholarly and convincing, and carry much weight. Its illustrations of current events are full and fresh, and are prepared by our best designers. With a circulation of 150,000, the *Weekly* is read by at least half a million persons, and its influence as an organ of opinion is simply tremendous. Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, and remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unprepared attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to a healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfect and reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Langnor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness; Bilious Colic** and **Bilious Fevers,** they should be judiciously taken in each case, to correct the disordered action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* in the morning makes him feel decidedly better, from their cleansing and tonic effect on the digestive apparatus.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the **MOST PERFECT,** natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all other lenses in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.
